Certificate IV in Financial Services
FNS41815

A FLEXIBLE FINANCE QUALIFICATION THAT CAN BE TAILORED TO MEET YOUR CAREER GOALS
About This Course

The Certificate IV in Financial Services will help take you to the next level of your finance career, and allow you to upskill in areas that suit your specific career goals and business needs. You can also meet the ASIC adviser and credit licensing requirements by selection of electives. This course is ideal for banking roles like senior tellers, customer service officers, lenders and branch supervisors who want to take the next career step.

Finance and banking offers a great career path. Our extensive array of financial services electives cover soft skills such as effective sales techniques, leadership and dispute resolution; to specialised skills and knowledge relating to financial products, loans assessment and risk management strategies, mortgage broking and debt collection to name just few. Whatever banking or finance career you choose, this course has electives to suit.

Entry Requirements

Reading and Writing Skills
The course is an online correspondence course so you need to have average English reading and writing skills, or higher. As a guide - you should have completed Year 12 schooling, or have sound workplace written communication skills.

Spoken English Skills
Some components of this course have practical components where students will be required to demonstrate verbal communication skills as part of their assessments. Average English skills are necessary to complete these components successfully.

Numeracy Skills
Numeracy skills are only required to a basic level eg calculations with calculators.

Computer and Internet
- Access to a Desktop Computer or Laptop
- Internet access with Internet Explorer 8+, Chrome or Firefox
- Microsoft Office 2010 Word and Subject specific Office products for chosen electives (ie Excel, Powerpoint, Publisher)

Other
- Ability to study and conduct assessments in a safe environment
Subject Descriptions

Core Subjects:

Professional Conduct in Finance

To build a successful career in the financial services industry you need a range of skills and knowledge. This subject covers skills to work effectively in a team, manage your time, apply specific legislation that affects your role, to identifying how your organisation can be more sustainable. You will develop your own professional development plan to ensure that you continue to progress in your chosen field in financial services.

Unit(s):
FNSINC401 - Apply principles of professional practice to work in the financial services industry

Elective Subjects: 4 - 6 Electives are required (depending on subjects chosen)

Contribute to Safety

This subject covers the skills and knowledge required to work in a healthy and safe manner. You will learn to recognise hazards, the importance of safety signs and how to raise safety issues within a workplace. This is a great entry level subject to help you act and respond in a safe manner and it also covers how to respond to emergency incidents.

Unit(s):
BSBWH5201 - Contribute to health and safety of self and others

Understanding Savings Products

Not all savings accounts are the same. Understand the range of differences between different savings and investment products and be able to compare products and recommend the most suitable one to meet specific customer needs.

Unit(s):
FNSIAD301 - Provide general advice on financial products and services
FNSINC402 - Develop and maintain in-depth knowledge of products and services used by an organisation or sector

Co-ordinate Customer Service

Providing good service to your internal and external customers is a critical responsibility for managers. Learn how to identify the key aspects of service delivery important to your customers, and how to train staff to deliver this.

Unit(s):
BSBCUS401 - Coordinate implementation of customer service strategies
BSBCUS402 - Address customer needs
BSBCUS403 - Implement customer service standards
FNSCUS403 - Deliver a professional service to customers
Compliance with FS Legislation

Compliance is a key theme in any financial services role. This subject looks at the regulatory bodies that supervise the industry and the laws and codes of practice that impact on day to day operations. Strategies for staying up to date with compliance issues is a key part to this subject. Privacy laws are a topic covered in this subject.

Unit(s):
FNSORG401 - Conduct individual work within a compliance framework

Sales Solutions

This subject covers key concepts in sales and marketing, prospecting, qualifying prospects and approaching the prospect. Other topics covered are managing your client data sales planning process and knowledge required for successful selling.

Unit(s):
FNSSAM401 - Sell financial products and services
FNSSAM403 - Prospect for new clients

Dispute Resolution

Formal disputes processes exist in financial services as a regulatory requirement. In this subject you will learn formal complaints management techniques, Internal Dispute Resolution requirements and understand the applicable External Dispute Resolution Schemes.

Unit(s):
FNSCUS402 - Resolve disputes
FNSPIM410 - Collect, assess and use information

Tier 2 - All Streams

This subject provides Tier 2 accreditation for Basic Deposit Products, Non-Cash Payment Facilities and General Insurance. Course content addresses personal and general advice; economic environment and industry legislation; as well as product features.

Unit(s):
FNSASIC301 - Establish client relationship and analyse needs
FNSASIC302 - Develop, present and negotiate client solutions

Action Outstanding Debts

The role of debt collectors is an essential one in the financial services industry and in the wider economy. Through a look at debt collection guidelines, licensing, secured and unsecured creditors, negotiation and managing accounts, you will learn the various skills and knowledge essential to ensure debts are retrieved efficiently and that all legal requirements are supported.

Unit(s):
FNSMCA301 - Collect debts
FNSMCA401 - Develop and document case recommendations

Loan Securities and Risk Management

The key focus of this subject is understanding and assessing the risk within a loan application, and determining the necessary security in line with Lending Policies. This subject looks at the standard types of securities including bills of sale, guarantees and mortgages. This subject requires clear communication skills and knowledge of securities to be demonstrated by a one on one role play with a college trainer.

Unit(s):
FNSCRD402 - Establish and maintain appropriate security
Legal Proceedings

This subject covers ways of locating the Debtor, the types of debtors and the types of debts. It looks at the role of the regulators, the regulations that apply to the legal process and the impact that securities have on the collection of debts. Important in this subject is how legal proceedings to recover debts are commenced through the Court Systems Proceedings and the enforcement processes that can result.

Unit(s):
FNSMCA402 - Initiate legal recovery of debts

Broking Skills

Broking Skills looks at the essential skills for a mortgage and finance broker: interview techniques; determining client needs and explaining product differences. This subject covers an overview of the industry, relevant Industry Bodies, and key legislation such as Broker Arrangement Regulations and the National Consumer Credit Protection Act.

Unit(s):
FNSFMB401 - Prepare loan application on behalf of finance or mortgage broking clients
FNSFMB402 - Identify client needs for broking services
FNSFMB403 - Present broking options to client

Insurance Quoting

Insurance Quoting is a very practical subject. The student will learn about general insurance terms, policy coverage and exclusions and complaint resolution schemes. They will be required to obtain a quote, use a valuation tool and take part in a simulation with one of our College student advisers to demonstrate negotiation and customer service skills needed to provide a quote to a customer.

Unit(s):
FNSCUS401 - Participate in negotiations
FNSISV303 - Issue contract of insurance

Use Business Technology

This subject looks at the skills and knowledge required to select and use computer software and organise electronic information and data. A competency conversation is used to determine your current knowledge and any specific skills and knowledge that are needed about basic business technology such as computers and printers.

Unit(s):
BSBWOR204 - Use business technology

Business Networks

Business networking is an important skill in many roles. This subject looks at ways to identify business networks you should belong to and ways to make valuable contacts when participating. This subject involves practical communication skills and also requires the use of persuasive communication skills.

Unit(s):
BSBREL402 - Build client relationships and business networks

Prioritising to Achieve Team Goals

Achieving goals is at the heart of leadership success. You will learn how to set effective targets and priorities to maximise your productivity and results. This subject covers how to assess urgency and priorities, plan work schedules, monitor individual and team performance and set professional development goals.
Leadership Skills
This subject is specifically designed to lay a strong leadership foundation for learners. Focusing on key leadership elements such as communication, organisational behaviour, being a role model, problem solving, delivering feedback and effective decision making, this subject is perfect for anyone looking to build or enhance their leadership skills.

Unit(s):
BSBMGT401 - Show leadership in the workplace
BSBMGT405 - Provide personal leadership

Understanding Consumer Credit
This subject looks at the skills and knowledge required to explain the functions and implications of different forms of consumer credit to clients.

Unit(s):
FNSCRD503 - Promote understanding of the role and effective use of consumer credit

Working with Others
Unit(s):
BSBWOR203 - Work effectively with others
Service Guarantees

Quality Training Provider
ACCM was one of the first private training Colleges to be given official RTO registration status. 21 years later we have helped over 2 000 employers and 25 000 students achieve their career goals and have been recognised as a state finalist on the NSW Training Awards. We have a history of satisfied students and clients and repeat business. Our testimonials on our website are genuine and the type of feedback we receive daily. We are so confident that you will be pleased with the College service, that we guarantee it.

Personal Contact for the Right Start
When you enrol your College Student Adviser will phone to welcome you to the course. Your Student Adviser will ensure that you understand the best way to progress in your course. They will also assist you with any questions you may have. They will be in regular touch with you at the start of your course to offer motivation, support and guidance. For employment based enrolments they will also make contact with supervisors during this time to address any questions they may have.

Speedy Paper-less Enrolment
Enrolment Applications are accepted 24/7 online. Be fully enrolled in your course in 7 minutes! For customised or employment based courses and traineeships contact us and we will send you a customised enrolment page by email.

Start Anytime - Immediate Enrolment
Within 30 minutes of being enrolled, your personal log-on details are emailed to you. This gives you access to course materials to commence your studies (via our on-line system WebClass).

Industry Expert Student Adviser
You will be allocated your own industry experienced Student Adviser. While they will personally manage your program; you will also benefit from the College team around them to provide expert assistance in all subject areas.

Prompt Results and Feedback
All assessments are promptly returned (via Webclass) with detailed feedback and encouragement. Our goal is to have them back to you in 2 weeks or less. In the meantime you can progress to your next subject.

Quality Course Materials
Our step by step course materials have been written by industry experts specifically for the College. They will give you all of the relevant learner information you need to succeed in your course. The resources simplify industry jargon and concepts, give you industry insight and understanding, and focus on current real world business practices.

Employer Progress Updates
For employment based enrolments all supervisors will be emailed a monthly progress report showing the status of all learners. We understand that its essential to keep you up to date.
