Diploma of Business Administration

BSB50415

TAKE YOUR BUSINESS ADMINISTRATION SKILLS TO THE ADVANCED LEVEL
About This Course

The Diploma of Business Administration will help you go far beyond the day to day duties of an office administrator. It delivers the theory and skills required to elevate your performance, overhaul outdated processes and procedures, identify costs savings, and to plan strategically for the future administrative requirements of any business.

The Diploma of Business Administration will ensure that you learn the keys to good document design, quality processes to help you implement efficient administrative systems; can effectively manage meetings and undertake projects. The Diploma has elective options such as managing customer service, people management or payroll. You will need Word skills at certificate IV level to succeed in this diploma.

Entry Requirements

Reading and Writing Skills
The course is an online correspondence course so you need to have strong English reading and writing skills, or higher. As a guide - you should have completed a formal course after having completed Year 12 schooling, or have proven workplace written communication skills.

Spoken English Skills
Some components of this course have practical components where students will be required to demonstrate verbal communication skills as part of their assessments. Average English skills are necessary to complete these components successfully.

Numeracy Skills
Numeracy skills are required at an average level eg completion of Year 10 maths and the ability to use a calculator.

Computer and Internet
- Access to a Desktop Computer or Laptop
- Internet access with Internet Explorer 8+, Chrome or Firefox
- Microsoft Office 2010 Word and Subject specific Office products for chosen electives (ie Excel, Powerpoint, Publisher)

Other
- Ability to study and conduct assessments in a safe environment
Core Subjects:

Organise and Manage Meetings
In this subject you learn what constitutes a meeting and includes types of meetings, different ways to hold meetings and their structure. You will also cover how to organise meetings, formal meeting procedures, the preparation of minutes and agendas and the art of participation, as well as legal and ethical requirements surrounding meetings. You are required to arrange a remote meeting as the practical component of this subject.

Unit(s):
BSBADM502 - Manage meetings
BSBADM405 - Organise meetings

Conference Planning
Conference Planning prepares you to organise business events, as well as being a suitable subject for Events Co-ordinators. From preparation through conference registration, you will learn about logistics, staffing, and financial management, and promoting and evaluating your conference.

Unit(s):
BSBADM503 - Plan and manage conferences

Document Design & Development
This subject covers high level word processing skills to enable students to design and develop forms and documents using check boxes, macros, auto-fill and other advanced Word features. Students must have intermediate Word skills to undertake this subject.

Unit(s):
BSBADM506 - Manage business document design and development

Admin System Design
This subject suits Office Managers seeking to review their office administrative systems. You will learn to plan and implement system changes that help your organisation move forward, as well as monitoring the effectiveness of changes and addressing staff training needs.

Unit(s):
BSBADM504 - Plan and implement administrative systems
BSBINM501 - Manage an information or knowledge management system
Elective Subjects: 2-3 elective subjects are required (depending on electives chosen)

**Project Management**
This is a practical subject that develops knowledge and skill in the area of team management and planning control and reviews. Case studies used throughout will help you use these concepts to take a project from initiation to final implementation, as well as how the development of plans, monitoring and reviewing quality and risk.

Unit(s):
BSBPMG522 - Undertake project work

**Payroll Processing**
You will learn the features of a payroll system, relevant Legislation and Government bodies, setting up payroll, processing payroll including topics on transition of loadings and other penalty rates, Annual and Sick Leave, Leave accrual and Long Service Leave, taxes such as Superannuation Guarantee and Fringe Benefits Tax, as well as how to safeguard the payroll. It is preferred you are a payroll practitioner if you choose this subject.

Unit(s):
BSBFIM502 - Manage payroll

**Quality Planning Strategies**
This diploma level task goes beyond theory and asks learners to apply the principles of operational planning and continuous improvement in a realistic workplace scenario. Learners will carefully analyse business results to build an improved operational plan that takes into account the key elements consultation and communication, goal setting, monitoring, training, recruitment, resource procurement and embedding continuous improvement opportunities.

Unit(s):
BSBCUS501 - Manage quality customer service
BSBMGT516 - Facilitate continuous improvement
BSBMGT517 - Manage operational plan

**Prioritising Strategies**
This subject provides time management strategies and planning techniques suited for setting personal and team goals and targets. The importance of goals being linked to key performance indicators of the business is examined.

Unit(s):
BSBWOR501 - Manage personal work priorities and professional development

**Manage People Performance**
This hands on subject looks at the skills and knowledge required to manage the performance of staff who report to you directly. Development of key result areas and key performance indicators and standards, coupled with regular and timely coaching and feedback, provide the basis for performance management. This subject covers strategies for assigning and allocating work, establishing clear role responsibilities, and using performance counselling methods and development plans for improving performance.

Unit(s):
BSBMGT502 - Manage people performance
Service Guarantees

Quality Training Provider
ACCM was one of the first private training Colleges to be given official RTO registration status. 21 years later we have helped over 2 000 employers and 25 000 students achieve their career goals and have been recognised as a state finalist on the NSW Training Awards. We have a history of satisfied students and clients and repeat business. Our testimonials on our website are genuine and the type of feedback we receive daily. We are so confident that you will be pleased with the College service, that we guarantee it.

Speedy Paper-less Enrolment
Enrolment Applications are accepted 24/7 online. Be fully enrolled in your course in 7 minutes! For customised or employment based courses and traineeships contact us and we will send you a customised enrolment page by email.

Start Anytime - Immediate Enrolment
Within 30 minutes of being enrolled, your personal log-on details are emailed to you. This gives you access to course materials to commence your studies (via our on-line system WebClass).

Industry Expert Student Adviser
You will be allocated your own industry experienced Student Adviser. While they will personally manage your program; you will also benefit from the College team around them to provide expert assistance in all subject areas.

Prompt Results and Feedback
All assessments are promptly returned (via Webclass) with detailed feedback and encouragement. Our goal is to have them back to you in 2 weeks or less. In the meantime you can progress to your next subject.

Personal Contact for the Right Start
When you enrol your College Student Adviser will phone to welcome you to the course. Your Student Adviser will ensure that you understand the best way to progress in your course.
