Certificate III in Accounts Administration

FNS30315

A STRONG FOUNDATION IN ACCOUNTS CLERICAL SKILLS AND ACCOUNTS PAYABLE & RECEIVABLE
About This Course

The Certificate III in Accounts Administration qualification covers both sides of the accounts clerical role i.e. accounts payable and receivable. In the process, you will learn about journals and ledgers and how to manage and reconcile petty cash. You will also learn key support functions like writing letters and basic word processing skills.

Having accounts administration skills can open many new job opportunities. Accounts clerk roles are always available, and general administration roles always advertise accounts skills as highly desirable. As long as you have average numeracy skills and can find your way around a calculator you will be able to skill up in this key area. The Australian College makes accounts training easier with high quality step by step course materials and the support of a dedicated team of Student Advisers who have real accounting experience. Our Student Advisers are skilled at transferring their accounts knowledge in an easy and understandable way, making your online course experience a positive one.

To ensure successful completion of this course you must have sufficient English speaking skills to be able to communicate with your Student Adviser over the phone.

Numeracy Skills
Numeracy skills are required at an average level eg completion of Year 10 maths and the ability to use a calculator.

Computer and Internet
- Access to a Desktop Computer or Laptop
- Internet access with Internet Explorer 8+, Chrome or Firefox
- Microsoft Office 2010 Word and Subject specific Office products for chosen electives (ie Excel, Powerpoint, Publisher)

Other
- Ability to study and conduct assessments in a safe environment
Subject Descriptions

Core Subjects:

Paying Business Bills

This subject examines how to process payments such as supplier bills and provides an overview of how computerised accounting software can be used to record and process payments. This subject looks at the basic payment functions of either MYOB or XERO. This subject is practical in nature and requires practical activities undertaken using accounting software on trial software versions.

Unit(s):
FNSACM303 - Process payment documentation

Perform Calculations

Perform Calculations covers a wide variety of financial calculations such as depreciation, GST and interest rates that needed in many industry roles. It also covers methods for checking calculation outcomes, use of online tools, and tips of detecting errors. This subject also introduces spreadsheets as a means of conducting repeated calculations.

Unit(s):
FNSACC303 - Perform financial calculations

Write Business Documents

Learn to develop a good writing style for creating standard business documents such as letters, invoices, memos and emails. You will also get tips on reviewing, proof reading and editing documents, as well as how to safely save and store them. Practical activities ensure that you have the necessary skills to organise information, communicate with work colleagues and write clearly.

Unit(s):
BSBWRT301 - Write simple documents

Word Processing Skills

Learn key word processing skills that will allow you to create template documents, design and prepare multiple page documents, use mail merge and apply styles in accordance with any organisational style guides. You will also learn how to insert tables and images and an excel graph or chart into your word document to improve its readability and appeal.

Unit(s):
BSBITU306 - Design and produce business documents
Administer Customer Invoices

Learn the skills and knowledge required to correctly allocate payments, reconcile accounts and maintain customer details. This accounts clerical subject looks at the issuing of invoices and the receipting of payments using either MYOB or XERO trial versions. Students will also learn how to interpret a trade debtors report.

Unit(s):

FNSACM301 - Administer financial accounts

Bank Reconciliation

Bank reconciliation requires the skills to receive, identify and record receipts and match receipts to invoices. This subject looks at Bank Reconciliation using accounting software with the option of using XERO or MYOB. Learners will identify the steps to be followed and how to action discrepancies.

Unit(s):

FNSACM302 - Prepare, match and process receipts

Computerised Accounting

This subject builds on earlier subjects to develop the learners computerised accounting skills. Learners will be required to process accounts payable and receivable; process adjustments; maintain subsidiary ledgers by correct payment and receipt allocation; and prepare reports. Key support tasks like actioning bad debts is also a key part of this subject. XERO or MYOB is supported.

Unit(s):

FNSACC302 - Administer subsidiary accounts and ledgers
FNSACC304 - Conduct business activities using a computerised accounting system

Double Entry Accounting

This subject teaches double entry accounting so that learners have the skills and knowledge required to prepare journal entries, post journal entries to ledgers, prepare banking and reconcile financial receipts, and extract a trial balance and interim reports. The subject looks at the manual accounting steps involved and also how accounting packages process general journals.

Unit(s):

FNSACC301 - Process financial transactions and extract interim reports

Working in the Financial Services Industry

All roles in the financial services sector require skills to correctly interpret and apply industry and organisation procedures, guidelines and policies. Professional and ethical standards as well as the application of practices relating to sustainability also have a significant role to play.

Unit(s):

FNSINC301 - Work effectively in the financial services industry

Work Safely

This subject covers the skills and knowledge required to work in a healthy and safe manner. Learn to recognise hazards, the importance of safety signs and how to raise safety issues within a workplace. This is a great entry level subject to help you act and respond in a safe manner and understand how to respond to emergency incidents.

Unit(s):
Service Guarantees

Quality Training Provider
ACCM was one of the first private training Colleges to be given official RTO registration status. 21 years later we have helped over 2 000 employers and 25 000 students achieve their career goals and have been recognised as a state finalist on the NSW Training Awards. We have a history of satisfied students and clients and repeat business. Our testimonials on our website are genuine and the type of feedback we receive daily. We are so confident that you will be pleased with the College service, that we guarantee it.

Speedy Paper-less Enrolment
Enrolment Applications are accepted 24/7 online. Be fully enrolled in your course in 7 minutes! For customised or employment based courses and traineeships contact us and we will send you a customised enrolment page by email.

Start Anytime - Immediate Enrolment
Within 30 minutes of being enrolled, your personal log-on details are emailed to you. This gives you access to course materials to commence your studies (via our on-line system WebClass).

Industry Expert Student Adviser
You will be allocated your own industry experienced Student Adviser. While they will personally manage your program; you will also benefit from the College team around them to provide expert assistance in all subject areas.

Prompt Results and Feedback
All assessments are promptly returned (via Webclass) with detailed feedback and encouragement. Our goal is to have them back to you in 2 weeks or less. In the meantime you can progress to your next subject.

Personal Contact for the Right Start
When you enrol your College Student Adviser will phone to welcome you to the course. Your Student Adviser will ensure that you understand the best way to progress in your course. They will also assist you with any questions you may have. They will be in regular touch with you at the start of your course to offer motivation, support and guidance. For employment based enrolments they will also make contact with supervisors during this time to address any questions they may have.

Pro-active Learner Support
The support won’t stop! Contact from your College Student Adviser will continue every month, based on the level of help you need. Of course, at any time you can call us to get help. Get immediate assistance over the phone and by email. If immediate assistance is unavailable for any reason, we will make sure a qualified Student Adviser is in contact with you no later than the next business day.

Quality Course Materials
Our step by step course materials have been written by industry experts specifically for the College. They will give you all of the relevant learner information you need to succeed in your course. The resources simplify industry jargon and concepts, give you industry insight and understanding, and focus on current real world business practices.

Employer Progress Updates
For employment based enrolments all supervisors will be emailed a monthly progress report showing the status of all learners. We understand that its essential to keep you up to date.
